VPB Response to OSIG Report

Due to the confidentiality of the OSIG report, the Parole Board is not able to comment on the information contained in the report. However, the Parole Board must highlight that OSIG's conclusions are based on factual inaccuracies, a misunderstanding of the Parole Board's procedures, and incorrect interpretations of the Virginia State Code. Furthermore, as previously indicated, pursuant to § 53.1-136 (2)(a) Powers and duties of Board, the findings in OSIG's investigation do not impact the final decisions rendered by the Board as the final decision rests solely with the Parole Board.
